### BeautyProd

An e-commerce website for beauty products

#### Features-

- Sign up | Login | Cars Subscription pages | Cars Product page Summary page | Payment page.
- Product Page | Sorting - According Price | Filtering | Data Collection.

Tech Stack - JS DOM ES6 | HTML | CSS | Bootstrap

### Sentiment Analysis of Twitter Dataset

#### Exploratory Project

October 2018 – November 2018

- Two methods were adopted for building the classifier. In the first, words are vectorized using frequency count and RNN was used.
- In the second approach these word vectors were given weights according to POS polarity and Naive Bayesian Classifier was used.

### Spam Classification Application

#### Exploratory Project

January 2019

- Develop a Machine Learning based application with Flask and use it to predict and detect youtube spam comments.

## EDUCATION

### B.Tech in Mechanical Engineering

#### IIT Patna

July 2016 – November 2020
